

SugamFlow Automobile Spare Parts Management

Complete Business Solution for Spare Parts Shops & Workshops

Why Automobile Businesses Choose SugamFlow

Running an automobile spare parts business is challenging:

- ✗ Thousands of spare parts to manage
- ✗ Multiple OEM and alternate part numbers
- ✗ Wrong part sales and returns
- ✗ Stock shortages and dead inventory
- ✗ Workshop parts consumption tracking
- ✗ Warranty claim handling
- ✗ Supplier management and purchasing

SugamFlow solves all these problems in a single platform.

1. Smart Vehicle-Based Spare Part Search

Problem

Staff often struggle to identify the correct part.

Example:

Customer asks:

"Swift VXI 2023 Petrol ka air filter chahiye"

Traditional software requires manual searching.

SugamFlow Solution

Select:

Vehicle Make → Model → Variant → Year

System instantly shows:

- ✓ Compatible spare parts
- ✓ OEM numbers

- ✓ Alternative brands
- ✓ Available stock

Benefits

- ✓ Faster billing
 - ✓ Reduced wrong-part sales
 - ✓ Better customer satisfaction
 - ✓ Less staff dependency
-

2. OEM & Alternate Part Number Search

Search by:

- OEM Number
- Alternate Number
- Barcode
- Product Name

Example:

OEM Number: 13780M55R00

System automatically shows:

- Original Part
- Compatible Alternatives
- Available Brands

Benefits

- ✓ Faster counter sales
 - ✓ Easy cross-selling
 - ✓ Better profit margins
-

3. Intelligent Alternative Part Suggestions

When a part is unavailable:

System automatically suggests:

- Compatible alternatives
- Premium brands
- Economy brands

Example

Original Brake Pad Out of Stock

System Suggests:

✓ Bosch

✓ TVS

✓ Rane

✓ OEM Alternative

Benefits

- ✓ Never lose a sale
 - ✓ Improve customer conversion
 - ✓ Increase revenue
-

4. Complete Inventory Control

Track:

- Current Stock
- Reserved Stock
- Damaged Stock
- Minimum Stock
- Reorder Levels

Benefits

- ✓ Avoid stock-outs
- ✓ Prevent overstocking

- ✓ Improve cash flow
 - ✓ Better inventory planning
-

5. Purchase Order & Supplier Management

Create purchase orders directly from low-stock items.

Supplier information includes:

- Supplier Part Number
- Purchase Price
- MOQ
- Discount Structure
- Lead Time

Benefits

- ✓ Faster procurement
 - ✓ Better supplier negotiation
 - ✓ Reduced purchasing mistakes
-

6. Workshop Management

Create Job Cards for:

- Servicing
- Repairs
- Maintenance

Track:

- Customer Vehicle
- Labour Charges
- Spare Parts Used
- Mechanic Assigned
- Job Status

Benefits

- ✓ Full workshop control

- ✓ Better customer service
 - ✓ Accurate billing
 - ✓ Increased workshop revenue
-

7. Automatic Spare Parts Consumption

When workshop staff uses a part:

System automatically:

- ✓ Reserves stock
- ✓ Consumes stock
- ✓ Updates inventory

Benefits

- ✓ No manual stock adjustments
 - ✓ Prevent stock mismatch
 - ✓ Real-time inventory accuracy
-

8. Warranty Claim Management

Track warranty claims from:

- Customers
- Suppliers
- Manufacturers

Workflow:

Claim Created → Verification → Approval → Replacement → Closure

Benefits

- ✓ Organized claim management

✓ Better customer trust

✓ Reduced losses

9. Core Return Tracking

Suitable for:

- Batteries
- Alternators
- Starters
- Compressors

Track:

✓ Core Issued

✓ Core Returned

✓ Pending Returns

Benefits

✓ Reduce core losses

✓ Improve recovery rate

✓ Better profitability

10. Barcode-Based Billing

Scan product barcode.

Instantly fetch:

- Product Name
- Price
- GST
- Available Stock

Benefits

✓ Faster billing

- ✓ Reduced human errors
 - ✓ Better customer experience
-

11. GST & Tax Compliance

Supports:

- ✓ GST
- ✓ HSN Codes
- ✓ Tax Reports
- ✓ Purchase Reports
- ✓ Sales Reports

Benefits

- ✓ Easy compliance
 - ✓ Ready for audits
 - ✓ Accurate tax calculations
-

12. Mobile & Tablet Friendly

Business owners can manage:

- ✓ Inventory
- ✓ Sales
- ✓ Purchases
- ✓ Workshop
- ✓ Reports

From:

- Mobile
- Tablet
- Desktop

Benefits

- ✓ Manage business from anywhere
 - ✓ Real-time visibility
 - ✓ Faster decision making
-

Business Impact

Increase Sales

- ✓ Faster part identification
 - ✓ Alternative part suggestions
 - ✓ Better customer service
-

Reduce Inventory Losses

- ✓ Stock monitoring
 - ✓ Reorder alerts
 - ✓ Warranty tracking
-

Improve Workshop Efficiency

- ✓ Job card management
 - ✓ Spare consumption tracking
 - ✓ Mechanic productivity
-

Better Business Control

- ✓ Real-time dashboard
 - ✓ Purchase management
 - ✓ Inventory visibility
 - ✓ Profitability tracking
-
