

SugamFlow

Automobile Spare Parts Management Platform

SugamFlow Automobile Business Suite

Professional Sales & Marketing Brochure

Why Automobile Businesses Choose SugamFlow

Designed for spare parts retailers, wholesalers, distributors, garages, service centers, tyre dealers, battery dealers and multi-branch automotive businesses.

Industry Challenges

Stock mismatch, dead inventory, wrong part sales, supplier dependency, slow billing, poor visibility, manual purchase management and customer credit tracking.

Inventory & Product Management

Manage SKU, OEM Number, Part Number, Brand, Category, Vehicle Compatibility, Batch Tracking and Real-Time Stock Visibility.

Vehicle Compatibility Engine

Search spare parts by vehicle make, model, variant, engine type and manufacturing year to reduce incorrect sales.

Purchase & Supplier Management

Supplier catalog, quotation comparison, automated purchase orders, approvals, partial delivery handling, GRN and backorders.

Sales & Billing

Fast GST billing, barcode scanning, customer credit management, quotations, sales orders and invoice tracking.

Salesman Mobility

Field sales app for order capture, stock lookup, quotations, payment collection, visit tracking and customer engagement.

Dashboards & Analytics

Revenue, profitability, top products, dead stock, low stock alerts, supplier performance and branch-wise business intelligence.

Multi-Branch & Offline Mode

Centralized management with branch-level controls and offline billing, lookup and synchronization support.

Security & Audit

Role-based access, approval workflows, audit trails, monitoring, transaction tracking and operational transparency.

Business Benefits

Higher sales, lower inventory losses, faster billing, better procurement decisions, stronger customer retention and increased profitability.

Demo & Contact

Schedule a live demonstration of SugamFlow and see how it can modernize your automobile spare parts business.
