

SugamFlow — Automobile All Flows & Features Guide

Primary demo shop: AUTO-DEMO-01

Login: Shop owner mode → demo / Demo@2026

Duration: Full walkthrough ~90 min · Quick demo ~15 min

Audience: Sales, QA, onboarding, shop owners

Quick glossary

Term	Meaning
OEM number	Original equipment manufacturer part number (primary counter lookup)
Fitment	Which vehicle make/model/year a part fits
Counter POS	Fast spare-parts billing at shop counter
PO / GRN	Purchase order → goods receipt → stock increase
Job card	Workshop repair order with labour + parts
Core charge	Deposit on returnable parts (e.g. alternator core)
Warranty claim	Customer claim against sold part with warranty

Demo shops & credentials

Business type	Shop ID	Tenant	Username	Password
Spare parts counter	AUTO-DEMO-01	114	demo	Demo@2026
Workshop / garage	WORKSHOP-DEMO-01	115	demo	Demo@2026
Vehicle dealer (basic)	DEALER-DEMO-01	116	demo	Demo@2026
Tyre & battery	TYRE-DEMO-01	117	demo	Demo@2026
Parts distributor	DIST-DEMO-01	118	demo	Demo@2026

Seed all demos:

```
.\scripts\seed-automobile-demo.ps1
```

API smoke test:

```
.\scripts\test-automobile-api-smoke.ps1 -ShopIds AUTO-DEMO-01
```

Login screen → **Show demo login card** → pick shop → **Shop owner mode**.

Before you start

Check	How to verify
UI running	http://localhost:4200
Gateway + auth up	Login succeeds
Demo seeded	AUTO-DEMO-01 shows products, stock, suppliers
Automobile routes	/auto-parts loads dashboard (not 404)

If /auto-parts returns 404, restart **gateway-service** so automobile routes load.

Module map — main routes

Module	Route	What it does
Auto Parts Hub	/auto-parts	Dashboard, KPIs, quick links
Counter billing	/auto-parts/counter	Fast POS for spare parts
Vehicle parts finder	/auto-parts/finder	Search by OEM, vehicle, barcode
Vehicle master	/auto-parts/vehicles	Customer vehicles & registration
Spare parts list	/products	Part master (OEM, brand, HSN, fitment)
Stock	/stocks	On-hand, low-stock alerts
Purchase orders	/stocks/purchase-orders	PO workflow + GRN
Suppliers	/stocks/suppliers	Supplier master + catalog
GRN inspections	/stocks/inspections	Quality hold before stock (if configured)
Workshop job cards	/auto-parts/workshop	Garage jobs (WORKSHOP-DEMO-01)
Warranty claims	/auto-parts/warranty	Customer warranty lifecycle
Core returns	/auto-parts/core-returns	Deposit part tracking
Orders / invoices	/orders	Sales history & print
Customers	/users	Vehicle owners

Part A — Feature catalog (what is included today)

A1. Supported shop types

Type	Best for	Demo shop
AUTO_PARTS	Spare parts retail counter	AUTO-DEMO-01
AUTO_WORKSHOP	Garage / mechanic	WORKSHOP-DEMO-01
AUTO_SERVICE_CENTER	Authorized service	Same as workshop
AUTO_DEALER	Showroom (basic)	DEALER-DEMO-01
AUTO_PARTS_DISTRIBUTOR	Wholesale	DIST-DEMO-01
TYRE_BATTERY_SHOP	Tyre & battery specialist	TYRE-DEMO-01
AUTO_MULTIBRAND	Multi-brand store	Uses spare-parts module

A2. Spare parts product master

Feature	Status
Part number (SKU), OEM number	Yes
Brand, manufacturer, HSN/GST, MRP	Yes
Barcode scan at counter	Yes
Shelf / rack / bin location	Yes
Min/max stock, reorder alerts	Yes
Warranty days on part	Yes
Core charge (deposit parts)	Yes
Vehicle fitment (compatibility)	Yes
Excel product import	Yes
Product images	No

A3. Vehicle master & search

Feature	Status
Make / model / variant master	Yes
Registration number lookup	Yes
Search by OEM number	Yes
Search by vehicle (make/model/year)	Yes
VIN auto-decode	No
TecDoc / OEM catalog feed	No

A4. Counter billing & sales

Feature	Status
Fast counter POS	Yes
GST-inclusive billing	Yes
Customer = vehicle owner	Yes
Sales history & print	Yes
Credit / due tracking	Yes
Dedicated alternate-parts panel	Partial (API exists)

A5. Inventory & procurement

Feature	Status
Stock on hand, reserved, available	Yes
Low-stock banner	Yes
Purchase orders (draft → approve → receive)	Yes
GRN with batch/cost	Yes
Direct GRN (no PO)	Yes
Supplier master + part catalog mapping	Yes
Quality inspection on GRN	Yes (configurable)
Supplier claims & purchase returns	Yes
Inter-warehouse transfer	No

A6. Workshop (garage)

Feature	Status
Job cards (open → closed)	Yes
Labour + parts lines	Yes
Reserve parts on job	Yes
Consume parts on job complete	Yes
Bay scheduling / technician roster	No

A7. Warranty & core returns

Feature	Status
Warranty claims (DRAFT → CLOSED)	Yes
Core charge issue / return tracking	Yes
OEM warranty portal integration	No

A8. Not available (be honest in sales)

Gap	Impact
Dealer CRM (leads, booking, delivery)	DEALER-DEMO uses products + orders only
VIN decoder	Manual vehicle entry
TecDoc/OEM catalog feed	Manual entry or Excel import
Dedicated automobile P&L reports	Generic reports only
Offline mode	Web only, network required
Native Android/iOS app	Browser only

Part B — 15-minute sales demo (AUTO-DEMO-01)

Step	Screen	Show
1	Login → AUTO-DEMO-01	Shop owner lands on Auto Parts Hub
2	/auto-parts	Dashboard KPIs and quick links
3	/auto-parts/finder	Search part by OEM or Maruti Swift 2023
4	/auto-parts/counter	Bill 2–3 parts with GST
5	/products	OEM column, fitment, low-stock badges
6	/stocks/purchase-orders	Open PO-APPR-001 → receive goods
7	/orders	Recent counter sales

Pass / Fail: _____

Part C — Full flow walkthrough (AUTO-DEMO-01)

Phase C1 — Login & hub (5 min)

1. Open <http://localhost:4200>
2. **Show demo login card** → select **AUTO-DEMO-01**
3. Mode: **Shop owner** → Login

Expected: Header shows **Demo AUTO DEMO 01**. Menu includes **Auto Parts Hub**, **Counter sales**, **Parts stock**, **Purchase orders**.

4. Navigate to /auto-parts

Expected: Dashboard with quick links to Counter, Finder, Vehicles, Workshop, Warranty.

Test ID: AUTO-001 — Pass / Fail: _____

Phase C2 — Vehicle parts finder (10 min)

1. Menu → **Auto Parts Hub** → **Vehicle finder** (Or /auto-parts/finder)
2. Search by **OEM number** (e.g. a seeded Bosch or Mann filter OEM from products list)
3. Search by **vehicle**: Make **Maruti**, Model **Swift**, Year **2023**

Expected: Compatible parts list with part number, OEM, brand, stock hint.

4. Open **Vehicle master** (/auto-parts/vehicles)
5. Find a seeded registration (e.g. DL01AB1234 if present) → view linked customer

Expected: Vehicle record with owner and compatible parts link.

Test IDs: AUTO-002, AUTO-003 — Pass / Fail: _____

Phase C3 — Counter billing (15 min)

1. Go to /auto-parts/counter (or Orders → Add with auto counter mode)
2. Select / add customer (vehicle owner)
3. Add parts:
 - Search by part name or scan barcode
 - Add **Brake pad** or **Oil filter** (any seeded auto part)
4. Verify line GST, quantity, unit price
5. Save order / complete bill

Expected: Order saved. GST totals correct. Stock decreases for billed qty.

6. Open /orders → find new order → print or view detail

Test IDs: AUTO-004, AUTO-005 — Pass / Fail: _____

Phase C4 — Product master (10 min)

1. Menu → **Products** (/products)
2. Verify columns: Part number, OEM, Brand, Stock (for automobile shops)
3. Open any product → check tabs: General, Pricing, Inventory, Compatibility, Supplier, Warranty
4. Open fitment / compatibility section → verify vehicle links

Expected: Automobile-specific fields visible. Fitment rows for seeded parts.

Test ID: AUTO-006 — Pass / Fail: _____

Phase C5 — Stock & low-stock alerts (5 min)

1. Menu → **Parts stock** (/stocks)
2. Search a part billed in Phase C3
3. Confirm quantity reduced vs before billing
4. Check low-stock banner (if any part below reorder level)

Expected: Stock matches sales. Low-stock toast may appear for demo parts.

Test ID: AUTO-007 — Pass / Fail: _____

Phase C6 — Supplier & catalog (10 min)

1. Menu → **Stock** → **Suppliers** (/stocks/suppliers)
2. Open **Bosch Auto Parts India** (SUP-01)
3. Review GSTIN, payment terms, status **ACTIVE**
4. Scroll to **Product catalog** — mapped parts with MOQ, lead time

Expected: 10 suppliers seeded. Catalog mappings on key suppliers.

5. Optional: + **Add supplier** → create test supplier → add catalog line

Test IDs: AUTO-008, AUTO-009 — Pass / Fail: _____

Phase C7 — Purchase order & GRN (20 min)

Seeded POs on AUTO-DEMO-01

PO number	Status	Use for
PO-DRAFT-001	DRAFT	Edit, add lines, submit workflow
PO-APPR-001	APPROVED	Receive goods (GRN)
PO-RCV-001	FULLY_RECEIVED	View history, fulfillment panel

1. Open /stocks/purchase-orders
2. Open **PO-APPR-001** (approved, ready to receive)
3. Click **Receive goods (GRN)**
4. Enter delivered / accepted quantities → Submit

Expected: GRN created. PO status moves toward PARTIALLY_RECEIVED or FULLY_RECEIVED.

5. Check **Fulfillment** panel on PO detail (ordered vs received vs accepted)

Important — inspection mode: If procurement config has grnPostingMode = AFTER_INSPECTION, accepted qty goes to **inspection hold** first. Complete approval at **Stock** → **Inspections** (/stocks/inspections) before sellable stock updates.

6. Verify stock increase on received part (after inspection if applicable)

Test IDs: AUTO-010, AUTO-011, AUTO-012 — Pass / Fail: _____

Phase C8 — Warranty & core returns (10 min)

1. /auto-parts/warranty — view seeded warranty claim
2. Walk status: DRAFT → SUBMITTED → APPROVED → CLOSED (if actions available)
3. /auto-parts/core-returns — view core charge issue (ISSUED → RETURNED)

Expected: At least 1 warranty + 1 core return seeded on AUTO-DEMO-01.

Test IDs: AUTO-013, AUTO-014 — Pass / Fail: _____

Phase C9 — Customers & staff (5 min)

1. Menu → **Customers / Users** (/users)
2. Open a vehicle owner — verify phone, vehicles linked
3. Menu → **Staff** — list staff roles (if seeded)

Expected: ~50 customers seeded with vehicle registrations.

Test ID: AUTO-015 — Pass / Fail: _____

Part D — Workshop demo (WORKSHOP-DEMO-01)

1. Logout → Login **WORKSHOP-DEMO-01** / demo / Demo@2026
2. /auto-parts/workshop — list job cards
3. Open an **OPEN** job card → view parts + labour lines
4. Note **reserved** stock on parts lines
5. Complete / close job → verify parts **consumed** from stock

Expected: 6 job cards seeded (OPEN/CLOSED mix). Stock reserve/consume works.

Test IDs: AUTO-W01, AUTO-W02 — Pass / Fail: _____

Part E — Tyre & battery demo (TYRE-DEMO-01)

1. Login **TYRE-DEMO-01**
2. /products — MRF/Apollo/CEAT tyres, Exide/Amaron batteries
3. /auto-parts/counter — bill 1 tyre + 1 battery
4. /orders — verify GST bill

Expected: 8 tyres + 4 batteries seeded. 3 sample orders.

Test ID: AUTO-T01 — Pass / Fail: _____

Part F — Distributor demo (DIST-DEMO-01)

1. Login **DIST-DEMO-01**
2. /stocks — high warehouse quantities (~60 bulk SKUs)
3. /stocks/suppliers — 5 wholesale suppliers
4. /stocks/purchase-orders — wholesale POs
5. /orders — 2 wholesale orders

Expected: Bulk stock and B2B-style order history.

Test ID: AUTO-D01 — Pass / Fail: _____

Part G — Dealer demo (DEALER-DEMO-01)

1. Login **DEALER-DEMO-01**
2. /products — 7 vehicle SKUs (showroom catalog)
3. /orders — 2 high-value orders
4. /users — 50 leads (customers)

Note: Dedicated dealer CRM (leads pipeline, quotations, bookings, deliveries) is **not built**. Demo uses product + order data only.

Test ID: AUTO-DE01 — Pass / Fail: _____

Part H — Field sales + tablet combo demo

Device	Login	Screen	Story
Phone (salesman)	GEN-DEMO-01 field-force user	/field-force/workspace	Capture lead, schedule visit
Tablet (shop owner)	AUTO-DEMO-01	/auto-parts/counter	Owner bills parts while salesman is in field

See docs/FIELDFORCE-DEMO-LOGIN-CARD.md for salesman credentials.

Troubleshooting

Problem	Solution
/auto-parts 404	Restart gateway-service; check automobile routes in application.properties
Products 500 / permission denied on auto_part_details	Run infra/postgres/patches/productdb-grant-automobile-tables.sql on productdb
PO detail database error	Ensure PO has lines (re-run seed-automobile-demo.ps1)
Stock not updated after GRN	Check GRN status INSPECTION_PENDING → approve at /stocks/inspections
Wrong supplier on PO form	Use AUTO-DEMO suppliers (Bosch, Mann Filter) not GEN-DEMO suppliers
Outlet registry error	Restart shop-service; hard refresh browser
City required on shop edit	Restart UI dev server after latest fix

Test sign-off

Field	Value
Shop tested	AUTO-DEMO-01
Tests executed	_____ / 25
Passed	_____
Failed	_____
Blockers	
Tester name	
Date	

Pilot ready? If Phases C1–C8 pass on AUTO-DEMO-01 → automobile spare-parts module ready for pilot.

Test case reference

ID	Module	Priority	Summary
AUTO-001	Hub	P0	Login + dashboard
AUTO-002	Finder	P0	OEM search
AUTO-003	Vehicles	P0	Vehicle master + registration
AUTO-004	Counter	P0	Create counter bill
AUTO-005	Orders	P0	Order history + GST
AUTO-006	Products	P0	Auto part master tabs
AUTO-007	Stock	P0	Stock after sale
AUTO-008	Supplier	P0	Supplier list
AUTO-009	Catalog	P1	Supplier catalog mapping
AUTO-010	PO	P0	Open approved PO
AUTO-011	GRN	P0	Receive goods
AUTO-012	Inspection	P1	Inspection hold → stock
AUTO-013	Warranty	P1	Warranty claim view
AUTO-014	Core	P1	Core return view
AUTO-015	CRM	P1	Vehicle owners
AUTO-W01	Workshop	P1	Job card list
AUTO-W02	Workshop	P1	Reserve/consume parts
AUTO-T01	Tyre	P2	Tyre counter demo
AUTO-D01	Distributor	P2	Wholesale stock
AUTO-DE01	Dealer	P2	Vehicle SKU catalog
